Billing and Payment Procedures

Froedtert Health Patient Financial Services will bill your insurance company on your behalf if you provided us with your insurance information at the time of registration. If you did not have your insurance information with you, please contact our office. We will send you an invoice for each account once the account has been paid or denied by insurance (if insurance was available).

If you cannot pay the balance in full upon receipt of the invoice please contact our office to make payment arrangements or to apply for Financial Assistance. Failure to set up a formal payment arrangement that meets the guidelines of Froedtert Health will result in the account being referred for further collection activity.

Financial Assistance Program

We understand there are times when patients are not able to afford their hospital bills. The Froedtert Health Financial Assistance Program is designed to assist patients in this manner. Patients who qualify for the program will receive care with no obligation or discounted obligation to pay for services. An application must be completed in order to apply for the Financial Assistance Program. Patients who have insurance or other third party sources of payment for their health care may still qualify for financial assistance for the portion of the hospital bill that may be their own personal obligation to pay. Examples are deductibles and co-payments. The initial eligibility period for Financial Assistance is six months from the application date. Each patient will need to re-apply at the end of each covered period in order to continue in the Financial Assistance Program. A new completed application is required to re-apply.

Completed applications and other information can be emailed to finassist@froedtert.com.

Qualifying Patients

Financial Assistance may be provided to qualified patients who:

- Have or will receive medically necessary services at Froedtert & the Medical College of Wisconsin.
- Have cooperated with the respective hospital in seeking out and applying for other potentially available coverage programs such as Medicaid or BadgerCare.
- Froedtert Health determines eligibility based on household income, assets, and family size.
- Have turned in requested supporting documentation to support statement of income, assets, or family size.
- Have household income up to 400% of the federal poverty guideline.
- Lack the financial resources to pay for services provided at a Froedtert Health entity.
